The 3-in-One is the perfect kit for a diverse smoker. With the included 3 unique chambers you are ready to enjoy a multitude of dry herbs, concentrates, and liquids! These 3 chambers take the customizable experience, one step farther with adjustable airflow. Adjustable airflow allows you to customize the density of the vapor produced. Additionally you can screw a standard 510 thread cartridge onto the 3-in-One battery!

OPERATING INSTRUCTIONS

Using the Concentrates Atomizer:

- Connect the chamber to the battery. Do not attach the mouthpiece to the chamber yet.
 Apply your desired concentrates to the
- 2. Apply your desired concentrates to the chamber.
- 3. Connect the mouthpiece to the chamber.
- 4. Press and hold the button for 2 seconds to activate the battery. Continue to hold the button as you inhale. (To unlock press the button 5 times quickly) and be sure the battery is charged.

Using the Dry Herb Chamber:

- 1. Remove the chamber connector from the ceramic heating chamber.
- 2. Fill the ceramic heating chamber with your herb of choice. Use the packing tool to gently pack the chamber (do not over pack). Herb does not need to be finely ground, but loose.
- 3. Screw the chamber connector back onto the ceramic heating chamber.
- Press and hold the button for 2 seconds before inhaling and continue to hold the button as you inhale.

Warnings:

- ◆ Vaporizer may be hot after use. Be cautious when touching the device after any usage.
- Turn off the vaporizer when not in use!

CLEANING & MAINTENANCE

Cleaning

After using the Randy's 3-in-ONE vaporizer several times, the filter may get clogged resulting in a difficult draw a lower amount of vapor being released.

Cleaning Ceramic Chamber:

- 1. Disconnect from the battery.
- 2. Use the brush tool to gently clean the walls of the heating chamber.

Do not push all the way down and touch the heating element!

Replacing the Spring & Filter

- 1. Place the spring, smaller end first, into the chamber connector. Gently put through the other side until it's secure in its place.
- 2. Place the mesh filter tool to press the filter inside the chamber.
- 3. Use the packing tool to press the filter inside the chamber.
- 4. Screw the chamber connector to the ceramic heating chamber.
- 5. Insert the ceramic filter into the mouthpiece.
- 6. Connect the mouthpiece to the chamber connector. Make sure the mouthpiece is pushed all the way into the chamber connector. If the mouthpiece does not go all the way down it may need adjusted.
