H2O FUNCTION

Easily attach the Path Lite to a water pipe with the included water pipe attachment. Insert male end of the attachment into any 14/18mm female water pipe fitting, and slip the other side onto the mouthpiece of Path Lite. Pull through the water pipe to activate and achieve your perfect session.

CLEANING TIPS

1. If the air pathway becomes clogged, power off the device and remove each component.
2. To clean the removable glass air path tube, twist off the mouthpiece cap and remove the silicone components, then tip the device to pour out the glass tube. Once removed, clean glass tubing with Randy's Black Label. Rinse with water and let fully dry before inserting back into the device.
3. To clean the air pathway, twist off the tip and use the included brush to clean the air pathway through the tip base hole.
