

Randy's **Inspo™** DUAL

Dual Cart Concentrate Vaporizer

Instruction Manual

SPECIFICATIONS

Battery Capacity: 650mAh

Current: 3A

Output Voltage: 1.8v / 2.4v / 2.8v /
3.4v / 3.8v

Charging Port: USB-C

Resistance: $\geq 0.8\Omega$

Cart Capacity: Up to 2g for both carts

POWER ON/OFF

Auto-draw or press the main button 5x within 1.5 seconds to power on/off.

PREHEATING

Rapid draw 2x within 0.5 seconds or press the main button 2x within 5 seconds to Preheat.

Preheat will maintain for 15 seconds under constant 1.8v. It will stop preheating if any other operation happens.

SMOKING

Two operation methods: Draw-activated, or hold the button to activate smoking.

ADJUST VOLTAGE

Press the main button 1x to adjust the voltage. If there's no cartridge in one of the sides, the voltage for that side will not be adjusted.

Inspo Dual will default to 1.8v.

HOW TO USE DUAL CARTS

Press the small button below to switch the cartridge channel.

When switching to R or L, the corresponding indicator will light up on the digital display. If there's no cartridge in one of the sides, the indicator for that side will not light up.

LEFT
SELECTED

RIGHT
SELECTED

To use both carts at the same time, click and hold the small button until both L and R indicators illuminate.

BOTH
SELECTED

HOW TO USE WATER PIPE ADAPTER

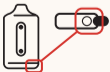

Once the device is powered on and the atomizer channel/voltage settings are adjusted, slide the silicone cap at the base of the device

BOTTOM VIEW

Insert water pipe attachment into the slot at the bottom of the device, and connect to water pipe or rig of your choosing, then enjoy.

BATTERY LEVEL DISPLAY

Press any button to wake the screen and display the current battery level. The screen will remain on for 10 seconds before turning off again.

CHARGING INFO

Low Voltage: When the battery voltage is below 3.2V, the display will show as 0.

Charging: When charging, the screen will display the current battery level and percentage.

Fully Charged: When fully charged, the screen will display 100%.

Charge Time: About 90 minutes.

⚠ DO NOT USE DURING CHARGING

IMPORTANT: It is CRUCIAL to charge all Randy's devices with **5V chargers**. For best results, please use Randy's USB-C Charger (Sold separately on **Randys.com**).

PROTECTION FEATURES

High Voltage Charging Protection:

Charging at 5v/0.5A is normal, but if the voltage is between 7v and 28v, the device will activate a protection mode and stop the charging current.

Screen Display: If the voltage exceeds the allowed range, the screen will turn off completely. It will only turn back on after the high-voltage source is disconnected, at which point the screen will return to its normal display.

Smoking Timeout: Screen display: If smoking greater than 15 seconds, the screen will flash 5 times.

Screen will flash 4 times when protecting a short-circuit or overload.

Screen will flash 3 times when no cartridge is detected.
